

DINITROL 1-C Guns

DINITROL 1-C Guns for 310ml, 400 or 600 ml, 20V

The DINITROL Mastertool dispenser enables optimum processing of DINITROL windscreen-adhesives and sealants.

- » 20 V rechargeable battery, easily allows up to 30 applications
- » Compressive force 5000 N, supports easy dispensing of the higher viscous adhesives
- » The low net weight and compact design as a professional tool
- » Version 1: For 310ml cartridges and 400ml foil wraps
- » Version 2: For 310ml cartridges and 600ml foil wraps

DINITROL 1-C Guns

Art. No.

1736600	400 ml, Bonding + Sealing
1736500	600 ml, Bonding + Sealing

DINITROL 1-C Guns

Technical Details

Areas of application:

The DINITROL Mastertool dispenser enables optimum processing of DINITROL windscreen-adhesives and sealants. In particular, the higher viscosity materials can be processed easily and without stress, even with continuous application.

- 20 V rechargeable battery, easily allows up to 30 applications
- Compressive force 5000 N, supports easy dispensing of the higher viscous adhesives
- The low net weight and compact design as a professional tool
- Version 1: For 310ml cartridges and 400ml foil wraps
- Version 2: For 310ml cartridges and 600ml foil wraps

The all-metal bevel gear drive system provides an overall gear ratio of 1300: 1 Our clutch design ensures precise piston position for fast bead recovery after triggering. The compact and efficient design of the DINITROL Mastertool dispenser makes it 20% lighter than other tools for professional use. The battery-charger offers a very fast charging time of 30 minutes.

Delivery versions

1736600 DINITROL Mastertool, 310ML/400 ml consists of:

- DINITROL storage bag
- 400 ml Dispenser 20 V Mastertool
- 310 ml Drive rod
- 1 Cartridge piston
- 1 Foil wrapping piston
- 1 Cartridge holder
- 1 Charger with EU cable set
- 1 Battery

1736500 DINITROL Mastertool, 310ML/600 ml consists of:

- DINITROL storage bag
- 600 ml Dispenser 20 V Mastertool,
- 310 ml Drive rod
- 1 Cartridge piston
- 1 Foil wrapping piston
- 1 Cartridge holder
- 1 Charger with EU cable set
- 1 Battery

Processing

Ensure full-surface application of the DINITROL adhesive system on a dry, grease- and dust-free substrate. If necessary, please apply the appropriate pretreatment system on the cleaned surface before bonding.

For easy application, apply the adhesive at room temperature. For a uniform adhesive layer thickness, it is recommended to apply the adhesive in the form of a triangular bead. For further details, please refer to our technical data sheets.

Remark:

Mechanical fastening is recommended for overhead applications and vertical surfaces.

For all relevant safety advices please read the material safety data sheet or the packaging label.

All data and recommendations are the result of careful tests by our laboratory. They only can be considered as recommendation which corresponds to the level of experience of today. The data are given in good faith. However, in view of the multiplicity of possible application and working methods we are not in a position to assume any responsibility or obligations deriving from the misuse of our products. Therefore, a contractual legal relationship is not justified, and there are no secondary obligations arising from any purchase contracts.
